> I recognize both the virtues and limitations of pure nationalism, I love its virtues, I don't allow myself to be blinded by its limitations, though I knew that it is not easy for the great majority of any nation to get over these limitations. In so far as nationalism encourages us to love our people and love others, or at least encourages us not to hate others, there I am completel] with nationalism. In so far as nationalism inculcates in us a sense of national and social justice which calls upon us to fight any system that is oppressive or tyrannical both in our country and the world, there I am completely with nationalism. I hate Imperialism whether British or Japanese or Burmese.
